

Dresden & Company

Get Ready for
a Season of
Celebration!

Dear Friends,

I will never be able to tell you how fortunate I feel as we embark on this journey. We are doing what we love – creating beautiful handcrafted baskets in our beloved village of Dresden, Ohio, and sharing Dresden’s basket making legacy and so much more with friends and family across the country.

It has been a privilege to spend my days (and some late nights) with incredible people who truly care about one another, working hard to bring our Customers an exclusive array of exceptional items. From our baskets to our American Potter’s Collection and everything in between, we have carefully selected and designed each item to bring beauty, function and years of use to your home.

The experience of creating Dresden & Company has reinforced my belief that relationships are the magic of life. We hold within us so many dreams, complexities and emotions that any time we engage in a sincere and respectful conversation we sow change in ourselves and everyone with whom we share.

The future is in our hands. It is my dream that we build our credible and sustainable business on the strong foundation of Dresden and its wonderful people. We will reinvest in our community and share our exciting story of friendships, amazing possibilities and this wonderful company throughout the country.

We are blessed with this unique ground floor opportunity to create an authentic, trustworthy and value-driven company. It has been an absolute pleasure to assemble and work with a group of skilled people who know Dresden, baskets, and above all, appreciate that honest, open relationships are to be cherished and never taken for granted. We understand that it is through the fulfillment of others’ dreams, as well as our own, that we experience the best in this life.

Please consider joining us.

With great respect,

Jim Lepi
Founder, Dresden & Company

“The experience of creating Dresden & Company has reinforced my belief that relationships are the magic of life.”

The entire process of creating Dresden & Company has been very rewarding. Sure, there were challenges, but we always knew that what we were doing was the right thing and that the result would be something that would make all of us proud. We wanted to create a company filled with incredible people, endless opportunities and amazing products, all that work hand-in-hand to support our mission of...

Life Made Better.

From the very beginning, we understood that great design, fueled by great function would be welcome in homes across America. We believe that it's important to go the extra mile to tell the stories of these items and the talented artisans who craft them, as well as the people who sell them and the Customers who love them!

As you browse our collection of products, our hope is that you feel an instant connection to Dresden & Company. We want to be a trusted friend, a place you can turn for the perfect gift for a special occasion, for something unique and beautiful for your own home, or maybe even something special and delicious for a get-together you're planning.

We invite you to sit back, relax and experience Dresden & Company with confidence, knowing our team of talented and passionate people, both in Dresden and across the country, are all focused on one goal — Life Made Better.

A Passion for Craft

I think I have the very best job at Dresden & Company. I get to work daily with the most amazing group of Weavers — who absolutely love coming to work to craft exceptional baskets, especially for you. Together, this group has over 220 years of basket making experience, all in a small Ohio village steeped in 100 years of basket making heritage.

But basket making is just the beginning. As we've created Dresden & Company, I've had the honor and opportunity to work alongside some of the most amazing partners I have ever known. Partners like Ohio Stoneware, which is crafting our exclusive American Potters' Collection, or the suppliers of our IronWorks 2-Tiered Server, with whom I personally worked to specify design and production.

Designing and crafting exceptional products that are as beautiful as they are functional is always my focus, but so is sourcing unique and exceptional items that our Customers will love. And while we are very proud of our initial collections of Baskets, D&Co. Kitchen foods, Home Accessories, Personalized Products and American Potters' Collection pieces — this is just the beginning. We are developing additional products that fit the D&Co. profile for monthly offers, holiday pieces and much more in 2020!

I can't wait for you to see them!

Director of Product Development & Manufacturing

The Beauty Behind the Basket

Every Dresden & Company basket has a story. Each is handcrafted in the same way baskets have been made in Dresden for 100 years, but no two are exactly alike. The individual beauty lies in the characteristics of the hardwood maple used and in the skillful technique of our artisans, who sign their name to every basket they weave. And just like our baskets, each Weaver has a story of their relationship to this deeply personal craft.

Over time, we'll share their stories with you. It's our belief that our baskets are not just beautiful and functional, but also they will become part of your everyday life. It's in that spirit that we want you to know more about the artisans who are bringing your baskets to life.

A Shared Sense of Discovery

One of my greatest pleasures is to “discover.” Discovering gives me an adrenaline rush! It sets off a series of emotions that are hard to define. I hope you are having the same experience as you discover Dresden & Company! My role as the D&Co. Creative Director is sometimes simply to discover. I may be traveling and discover a local potter gracefully turning a beautiful redware vase on their wheel.

Driving the back roads of Ohio, I may discover a field of blooming yellow mustard — the perfect place to photograph the D&Co. Company Picnic Basket. While antiquing, I may find a unique floral pottery pattern that inspires a wonderful new design. Or I may learn about one of the last remaining commercial American pottery manufacturers — right in Dresden, Ohio’s backyard! I’ve met some amazing artists, crafts people and family-owned companies along my journey. Your friends and I at Dresden & Company are proud to share our discoveries of talented crafts people in the enriching pages of our Home & Life Journal.

I’ve always had a passion for history and following style trends in the design world. Dresden & Company robustly celebrates both of these values — traditional skills with contemporary interpretations. D&Co. appreciates authenticity. We are dedicated to keeping America’s craft traditions alive — but we’re also passionate about modern American home design style. We are part of a growing revival for home products proudly crafted by hand, sometimes in small batches and often featuring locally sourced materials. Designs that are hand-touched, honest and often inspired by hard-working historic styles.

Please join us on a Dresden & Company discovery journey as we travel to the four corners of the world, searching for intriguing stories and welcoming products that will make your life better.

There’s so much to look forward to!

American-Made with Timeless Elegance

The Ohio Valley was the epicenter of Arts and Crafts pottery during the 19th and early 20th centuries. Locals relied on the region’s rich natural resources to develop a thriving ceramics business. Today, Ohio Stoneware is one of America’s last commercial pottery manufacturers, operating in nearby Zanesville, Ohio — once the Pottery Capital of the World.

Our American Potters’ Collection, made exclusively for Dresden & Company by Ohio Stoneware, features pieces fired at 2,200 degrees and designed to withstand the rigors of daily use for generations. The hand-applied stripe detail and exclusive finishing glaze combine to create a collection that’s perfect for today’s home with a nod to centuries-old style. Each piece is handcrafted with care and delivers the highest level of quality you can find anywhere in the world with the added charm of being made right in our own backyard.

BAKED BRIE CROISSANTS

Ingredients:

- 2 cans crescent dough
- 4 ounces Brie
- 1 jar D&Co. Kitchen Bacon Pepper Jam
- 2 tablespoons butter
- Red pepper flakes, ground cayenne or chili powder
- Kosher salt

Directions:

1. Preheat oven to 350° F. Line a baking sheet with parchment paper. Slice the Brie into small, thick rectangles. Roll out the crescent dough and cut into eight triangles. Stretching the triangles until long and skinny makes nicer spirals when rolled up.
2. Place a piece of Brie on the wide end of the triangle. Top with 1 teaspoon of D&Co. Kitchen Bacon Pepper Jam. Carefully roll up the dough by slightly crimping the sides as you roll up, so the jam doesn't spill out the edges. Place on the lined baking sheet and repeat with remaining croissants. You can cover the sheet with plastic wrap and store it in the fridge until ready to bake.
3. Brush the tops with melted butter and sprinkle with red pepper flakes and kosher salt. Bake for 15 minutes or until the tops are golden brown.
4. Transfer the croissants to a plate and serve immediately. If bringing to a party, reheat them in a 350° F oven for 5-10 minutes.

BLUEBERRY PECAN BOURBON APPETIZER

“Reliability and service excellence are two of the most important things we provide to our Proprietors and Customers.”

Dresden & Company
dresdenandcompany.com

Always at Your Service

In any business, there are many things that must happen behind the scenes to ensure the Customer experience is the best it can be. In a direct sales business like ours, with Proprietors and Customers across the country, that need is intensified. And it's my job to make sure that all our systems function at maximum capacity.

This includes our ordering system, our shipping system and so much more. When we built Dresden & Company, we began with the knowledge that our website had to be intuitive and easy to use and our orders must be filled quickly and accurately. And while I love all our products, and the opportunity we offer to our Proprietors, I believe that reliability and service excellence are two of the most important things we provide.

I am beyond excited about Dresden & Company. I feel as though everything I've done in my life, both personally and professionally, has helped prepare me for this exciting endeavor. You have my commitment that we are here for you. Being locally owned and operated gives us the ability to stay close to the business and to make sure we're always offering you our very best. I'm looking forward to a future filled with more new products, many new friends and moments we'll remember forever.
